JOYTEX®

the German brand for printed promotional bags

As the name suggests, Joytex® stands for the joy of textile advertising media. However, this joy is not limited to the name; we at Joytex® experience this joy every day and let it flow into our work. So that you as a customer or the recipient of a gift can enjoy Joytex® bags even more, we explain here why it makes sense to rely on our brand for your bags, too:

- **Joytex® means trust in the product**

All the textiles we import carry either the BSCI or Sedex certificate. This ensures that our suppliers in the Far East comply with all laws, including occupational health and safety laws. This means that working hours are in line with the law, employees are treated fairly and care is taken to prevent child labour, forced labour and discrimination.

- **Joytex® means high quality**

All textiles used by Joytex® comply with the OEKO-TEX Standard 100. This means that they are not only 100% free of harmful substances and tested for colour fastness, but also extremely safe for health and the environment ensuring safety for a sustainable lifestyle. The quality of all materials used and the workmanship of our bags are of a very high standard. So, you can use our bags again, and again and again...

- **Joytex® means bag design**

It's clear that an ordinary cotton bag is no designer piece. However, the attractive design of bags from our JX by Joytex® collection makes them stand out against the market. All JX bags are characterised by an appealing blend of shape and material and are labelled on the outside. As a result, the bags can be recognised as Joytex® products at first glance and thus contribute to increased identification.

- **Joytex® means innovation**

Another reason that is of great importance for you as a dealer of promotional items: Joytex® sets to work every year to create new bag products that are in tune with the spirit of the times and attractive to large target groups. Annual bag innovations thus help to always keep the future topic of "mobility and transport" in focus.

JX-COLLECTION – NATURAL AND EXCLUSIVE

Joytex® – Quality Bags has always been standing for high-quality and durability with its branded bags. The JX-Collection represents the next level of quality from Joytex®, comprising an impressive range with a number of new products and established top sellers. It provides the ideal textile base for the high-quality prints from our bag screenprinting factory in Westfalia that embodies both tradition and modernity.

Each bag stands out with a special product feature and all bags boast high-quality, sturdy materials. The target customer for the JX-Collection is any advertiser who values something special – from exclusive retail and gastronomy outlets to trend-oriented players from trade and industry, as well as merchandisers and souvenir shops.

- ✓ **Particularly high-quality, heavy cotton**
- ✓ **Sturdy processing with attention to detail**
- ✓ **Exclusive product features**
- ✓ **JX-quality label**
- ✓ **Individually printed short runs starting from 100 pieces**

COTTON BASIC – NATURAL AND GOOD

The cotton bag, a classic among branded media. Previously seen as merely a practical shopping tote, in recent years it has become a well-loved accessory and even a „must have“ among certain target groups. You now see them used everywhere as a fashionable leisure accessory. Joytex® has been importing these classic bags for over 35 years and printing conventional and organic cotton bags, veggie bags, pharmacy bags, backpacks and bags with or without side folds, in its own screen printing shop. Even for the basic range, Joytex® always uses minimum 140 g/m² OEKO-TEX® standard 100 quality. The absolute top seller – the simple, natural coloured cotton bag – even comes in 150 g/m². Quality that pays off.

- ✓ **High-quality OEKO-TEX® cotton**
- ✓ **Wide range of designs in stock**
- ✓ **Sturdy and well-made**
- ✓ **Fast delivery of high volumes from Germany**

R-PET – MADE FROM RECYCLED PET BOTTLES

The bags in the new R-PET product group look like bags made of normal, Non-Woven PP-material. But there's a lot more to them than that – namely, lots of old PET bottles. The empty bottles are collected, cleaned and shredded. Finally, the material is melted and processed into a Non-Woven fleece, which is used to make the Joytex® R-PET bags. The method is especially energy-saving, because there is no need to process oil into polymers. Joytex®'s high quality standards ensure that these bags are long-lasting, a sturdy advertising medium for your brand.

- ✓ **Tear-resistant R-PET material
100 % recycled PET bottles**
- ✓ **Low energy consumption
robust and well-made**
- ✓ **Also available as cost-effective Far East production**

KRAFT PAPER BAGS WITH 100 % OEKO-TEX® PREMIUM NON-WOVEN

Recycled kraft paper on the outside, tear-resistant PP premium Non-Woven on the inside, that is the secret of the Joytex® paper bags that can be reused again and again.

The bags look like paper, but can withstand a lot of weight. With a beautiful print, the bags become a popular reusable accessory. If the bags get wet in the rain, just let them dry and go on! The range now includes nine different bags of this exciting combination of fabrics, some with an interesting black side folds and handles, others in complete „Natural waste paper look“.

100 % OEKO-TEX® PREMIUM NON-WOVEN – TEAR-PROOF AND DURABLE

It's hard to believe but true: Almost all of the Joytex® Premium Non-Woven bags made of polypropylene have been awarded the OEKO-TEX® 100 certificate – that's far beyond the usual quality standard of this fabric. The bags are completely free of harmful substances, and also tear-resistant and particularly durable. Joytex® has been printing bags made of Non-Woven fleece for over 30 years with great success. The printing results on the Joytex® Non-Woven are impressive and thanks to Joytex®'s experience multi-colored prints can also be made on this fabric. This makes these bags a very light and inexpensive advertising solution in many shapes and colors.

FINE-KNIT JERSEY POLYESTER WRINKLE-FREE AND TEAR RESISTANT

Our fine-knit jersey polyester makes an excellent base for sublimation prints – a product of choice for printers and finishers. These bags are knitted rather than woven. The particularly fine, light polyester threads can be made into a high volume fabric with a minimum of fabrics. This makes the bags particularly light and they still have a great look and feel.

Another advantage of this fabric is that it's almost wrinkle-free. This means that even folding bags promise an optimum effect for your branding on a smooth surface. Due to their low polyester content compared to the fabric requirements for other weave types and the high reusability of the bags, they are a good alternative to other fabrics, even when considering the environment.

- ✓ **Crease resistant**
- ✓ **Ideal for sublimation prints**
- ✓ **Fast-drying knit fabric**
- ✓ **Particularly light and tear-resistant**
- ✓ **Ideal for folding bags**
